

ROYAL CARE
HOSPITALS
making life better

Liver Support Group for Patients and Family

Liver support group by Royal Care Super Speciality Hospital is a public health awareness activity done every 4 months on different themes about liver disease. This is done as a holistic effort to clear confusions and misconceptions about prevention, cure of liver diseases and to continue psychological support to rebuild oneself in all dimensions.

On this day we also offer optional screening tests at special rates to detect and follow liver diseases for high risk individuals to understand themselves better.

Make use of this opportunity to interact with specialists of the multidisciplinary liver team, clarify doubts, get tested and build yourself completely along with medical cure.

Theme For this meeting

Timely diagnosis of liver disease in high-risk individuals and supportive care in liver patients – Two sides of the coin

Date

**9.00 am
onwards**

Saturday

8

**Feb
2025**
